Status: Not Hosted

- **Live Match Data Website**

Experience a dynamic UI with our website crafted using jQuery and Tailwind CSS. Enjoy real-time updates on matches without refreshing the entire page. The sleek design ensures an engaging experience while keeping you informed with live match data.

Status: Not hosted

- **Fire Clash Enterprises Internship**

During my internship at Fire Clash Enterprises, I successfully developed 21 websites over a three-month period. Below are three representative links:

Website 1: <https://tieindia.medhahub.com/dev46/demo23GP91LZ/index.php>

Website 2: <https://tieindia.medhahub.com/dev46/demo23PC28KA/index.php>

Website 3: <https://tieindia.medhahub.com/dev46/demo23AL38EM/index.php>

You can explore all websites here:
<https://tieindia.medhahub.com/dev46/>

These websites showcase my proficiency in Bootstrap, HTML, CSS, and JavaScript, with dynamic PHP-driven header and footer repetition.

- **Movix Web Application**

Dive into movies with my Movix website, crafted using React. It connects with the TMDB API to display movie details, ratings, categories, and trailers. The site utilizes React Router Dom for seamless navigation, incorporates unlimited scroll for easy browsing, and features lazy loading and loading skeletons for a smooth experience. State management is handled efficiently with Redux.
